

Jorden McDonald LLC

Small Business
SAM.gov Registration:
Active

Custom software engineering, web application development, cloud deployment, database integration, modernization, and ongoing application support.

CORE COMPETENCIES

Custom Web Application Development • React, Next.js, Node.js & TypeScript • REST API Design & Systems Integration • MySQL Database Design & Development • AWS Cloud Deployment & Optimization • Authentication & Role-Based Access Control • Application Modernization & Maintenance • Section 508 / WCAG Accessibility • DevOps, CI/CD & Production Support

DIFFERENTIATORS

- Direct founder and lead-developer involvement throughout every engagement
- Full lifecycle delivery from requirements and architecture through deployment and support
- Lean operating model supporting rapid decisions, clear communication, and low overhead
- Experience combining modern web development, databases, cloud infrastructure, and security controls
- Responsive, accessibility-focused solutions designed for maintainability and measurable outcomes

RELEVANT PAST PERFORMANCE

Healthcare Website Modernization

Designed, developed, deployed, and maintained responsive websites for skilled-nursing and post-acute-care organizations, including secure contact forms, analytics, accessibility improvements, and ongoing technical support.

Business Invoicing Platform

Built a secure invoice-management application with authentication, role-based access, reporting, payment workflows, and automated PDF document generation.

Cloud & Third-Party Integrations

Implemented AWS-hosted applications and integrations with Stripe, reCAPTCHA, email platforms, and REST APIs using secure development practices.
